SKILLS

User Research | PRD Writing | Cross-Functional Collaboration | Stakeholder Management | A/B Testing | Wireframing (Figma) | Low-Code Tools | Linux | GCP | Server Architecture | MVP | Prototyping

EXPERIENCE

Asadel Tech | Associate Product Growth Strategist

Delhi | May 2024 – Present

- **Drove development of AI-driven B2B platforms** across healthcare, security, and industrial domains - owning product vision, PRDs, and wireframes from scratch. Collaborated with AI/ML engineers and designers to deliver solutions like the FRS & Age-Gender Analytics and real-time dementia detection platform.
- **Researched scalable deployment strategies** by evaluating compute needs (e.g., camera count, model complexity) across CPU and GPU types (Intel i-Series/Xeon, NVIDIA RTX/L4). Partnered with DevOps to improve inference performance and resource planning.
Impact: Enabled high-speed inference for real-time facial recognition, cutting latency by 95%.
- **Built and iterated on modular product MVPs** (e.g., coal theft, fire & smoke dashboards) by aligning with user pain points and real-time data needs. Defined KPIs, conducted A/B tests to improve UX, and developed alert systems, map views, and downloadable reports for logistics teams.
- **Led cross-functional collaboration** between engineering, DevOps, design, and sales teams. Bridged technical and non-technical stakeholders to reduce misalignment, accelerate go-to-market timelines, and drive strategic adoption across pilots and POCs.
- **Built and nurtured stakeholder relationships**, proactively resolving blockers, advocating for user needs, and driving product impact through iterative, data-informed improvements.

Teach For India | Mentor

Delhi | Sep 2023 - Mar 2024

- **Conducted research** on student performance data and designed customized NSO prep modules. **Applied student-centered thinking** to address learning gaps and iterate content, improving participation by 90%.
- **Collaborated with educators** to align academic goals with measurable student progress.

Healthy Aging India | Assistant Project Manager

Delhi | Nov 2022 - Jan 2023

- **Coordinated and led cross-functional teams** to execute health initiatives for the elderly. **Facilitated collaboration** between healthcare workers, NGOs, and civic bodies to improve delivery and outreach.
- Gained experience in stakeholder management, user research, and outcome tracking in resource-constrained settings.

PROJECTS — [VIEW FULL PORTFOLIO](#)

- **Coal Theft Detection Dashboard:** Built a real-time alerting system for logistics teams with GPS mapping and PDF reports.
- **Oral Cancer App:** Designed Android app to collect annotated screening data for ML training by dentists.
- **Medicine Delivery Case Study:** Case study exploring user segments, pain points & impact for feasibility of last-mile healthcare delivery.
- **Project Management Tool** Helps organize and track project progress with simple status updates and task logging.

EDUCATION

University of Alberta

Bachelor's degree in Integrative Physiology (Biological Sciences)

Edmonton, Canada

Nov 2022
